

Roberto M. Lang, MD, FASE, FACC, FAHA, FESC, FRCP
Professor of Medicine and Radiology
University of Chicago
Past President, American Society of Echocardiography

Roberto Lang is currently the Director of the Noninvasive Cardiac Imaging Laboratories at the University of Chicago and Associate Director of the Cardiology Fellowship training program. He is a Professor of Medicine and Radiology at the University of Chicago Medical Center. He has published more than 550 manuscripts on cardiac imaging and physiology during his career as well as over 100 book chapters and 10 books. Dr Lang has been a pioneer in the development of three dimensional transthoracic and transesophageal echocardiography, a non-invasive technique that is currently used world wide to diagnose heart disease. He serves as a manuscript review consultant for most cardiology peer-reviewed journals and serves on the editorial boards of the *Journal of the American College of Cardiology (imaging)*, *Circulation Cardiovascular Imaging*, *Journal of the American Society of Echocardiography* and *the European Journal of cardiovascular Imaging*. Lang's major research interests are the clinical utility of noninvasive techniques in assessing left ventricular contractile state and Three Dimensional Echocardiography. He was the president of the American Society of Echocardiography and has given the Edler Lecture and the Honorary Euro-Lecture of the European Society of Cardiovascular imaging.
